

BSR Collaborative Initiatives

Creating Shared Solutions to Global Challenges

2022 Engagement Opportunities

BSR Members are invited to participate in a variety of collaborative initiatives ranging from learning communities to collective action to advance the Sustainable Development Goals. This document lists the BSR collaborative initiatives that are available for companies to participate in during 2022.

BSR's Collaborations are organized by issue area—business transformation; nature & climate change; human rights; and diversity, equity, and inclusion. This document includes a brief description of each initiative, pricing information and a list of which departments beyond the sustainability team would benefit from participation. It also highlights for BSR members with annual dues of US\$15,000 or more how they can apply their BSR Member Engagement Option to offset the annual fee for some initiatives.

The majority of BSR collaborative initiatives run on a January – December schedule; however, most groups are open to members joining throughout the calendar year.

Companies are welcome and encouraged to participate in more than one collaborative initiative!

For more information about BSR's collaborative initiatives, please check the [BSR collaboration website](#).

COLLABORATIVE INITIATIVES | BUSINESS TRANSFORMATION

Collaborative Initiative	Relevant Departments <small>(in addition to CSR/Sustainability)</small>	Cost (\$US)	Can BSR's MEO be applied?
